

## MASTER OF SCIENCE IN PHARMACEUTICAL ECONOMICS AND POLICY (MS)

### SCHOOL OF PHARMACY

**LOCATION:** Boston or Online | **START TERM:** Fall, Spring

Bridge the gap between practice and policy with the **MASTER OF SCIENCE IN PHARMACEUTICAL ECONOMICS AND POLICY**. This program explores drug policy, outcomes research, pharmacoconomics, epidemiology, and data analysis. You'll learn to gather evidence and support informed decision-making for key stakeholders. This flexible program, available in-person or online, will open career opportunities in research, regulation, strategic planning, administration, and more.

### AT-A-GLANCE

- ▶ A two-year, 36-credit degree offered in-person or online, full-time or part-time.
- ▶ The in-person program is STEM-designated and has an optional thesis.
- ▶ Non-thesis and online students complete a capstone project.
- ▶ Students may apply to the PhD program after completing one year of the MS program.

## WHY MCPHS

- ▶ Join the School of Pharmacy, ranked the best pharmacy school in New England and second-best in the nation by College Factual.
- ▶ Learn from expert faculty with years of experience across the pharmaceutical industry.
- ▶ Our Center for Life Sciences builds close connections across the industry, creating enhanced learning and career opportunities for students.
- ▶ The Leadership in Pharmacy Education (LiPhE) Institute supports the personal and professional development of School of Pharmacy students and alumni.
